

## MAYSVILLE PLANS BIG RECEPTION FOR VISITORS MONDAY

Central Kentucky Business Men On Good Fellowship Trip Through the State Will Be Given Glad Hand Here.

Secretary George Kirk, of the Chamber of Commerce, this afternoon completed all arrangements for a royal reception for the 100 or more Central Kentucky business men who will arrive late Monday afternoon on the first lap of a good fellowship tour through the state. The arrangements for the care of the visitors over night at the local hotels have been completed and it is the purpose of Mr. Kirk and the local business men to be certain that the visitors will not soon forget Maysville.

At 4:30 o'clock Monday afternoon a reception committee in several automobiles will leave Maysville to meet the Lexington party between this city and Flemingsburg. They will be escorted to this city and their cars parked on lower Market street. The party will then march to the city band stand on Market street where music will be furnished by the Lexington band accompanying the party and Mayor Thomas M. Russell will present the key of the city. Following a response by some Central Kentucky business men, an address of welcome will be made by Hon. Stanley F. Reed and speeches will be made by members of the visiting delegation.

Dinner will be served at the Central Hotel from 5:30 to 7 and at 8 o'clock Maysville will show the visitors what we have in a musical organization when the Maysville Boys' Band will give a concert in their band stand. The visit will be climaxed by a Chamber of Commerce dance at Beechwood Park beginning at 9 o'clock. The delegation leaves Maysville Tuesday morning for Augusta and Cynthiana.

## 15 GROUNDS FOR NEW TRIAL IN THE MARKSBERRY CASE

County Will Pay for Transcript of Records That Marksberry's Case May Go To Court of Appeals For Decision.

Attorney Blaine McLaughlin, representing Thomas Marksberry, convicted of murder in Bracken county and sentenced to life imprisonment, in support of his motion for a new trial which was overruled by Judge Newell, set out these fifteen reasons:

1st.—That the court erred in failing and refusing the grant defendant a change of venue.

2nd.—That the court erred in the empaneling of the jury to try the case, in that the court failed and refused to draw the jury from the drum or wheel case as provided by law.

3rd.—That the court erred in permitting the Sheriff to call the names of jurors summoned.

4th.—That the court erred in failing and refusing to direct the clerk to place the names of the jurors summoned in the jury wheel, and draw the names from same.

5th.—That the court erred in failing and refusing to sustain defendant's motion for a peremptory challenge at the conclusion of the evidence for the Commonwealth.

6th.—That the court erred in suffering and permitting the Attorney for the Commonwealth to make improper arguments to the jury.

7th.—That the court erred in permitting the Commonwealth to introduce incompetent and irrelevant evidence.

8th.—That the court erred in improperly instructing the jury upon the law.

9th.—That the court erred in failing and refusing to instruct the jury upon the whole law of the case.

10th.—That the court erred in failing and refusing to instruct the witnesses to not talk to one another during the trial of the case to what they testified to except the Attorneys in the case.

11th.—That the court erred in refusing admission of competent evidence for defendant.

12th.—That the court erred in permitting armed soldiers in the court room and about the court house during the last day of trial.

13th.—That the verdict is contrary to law and evidence.

14th.—That the defendant has since the submission of the case discovered new and material evidence, material and necessary defense, and which evidence he had no opportunity of discovering in time to present to the jury.

He filed an affidavit "In Forma Pauperis" stating that he had no money nor way of procuring it with which to pay from the transcript of the records necessary to take an appeal to the Court of Appeals and the court then ordered the same made to be paid for out of the treasury of Bracken county.

## COUNTRY CLUB SIGNERS RELEASED BY COMMITTEE

Country Club Movement Seems to Have Fallen Through for the Present at Least.

The 115 citizens who signed an agreement to become charter members of the Maysville Country Club to be established at the old Calvert farm just east of the city, today received through the mails notice of their release from their agreement by the members of the committee in charge of affairs. This indicates that the plan has fallen through so far as the Calvert farm is concerned by those who are most interested in the establishment of a Country Club, but that it does not necessarily mean that the Country Club idea will be entirely discarded.

Several other propositions besides the Calvert farm have been offered to those leading in the movement and these propositions may receive consideration. Some of the sites are not on the street car line and therefore many object but they have other features not thus far obtainable on the car line.

Maysville and Mason county people need some such organization as a Country Club and although all efforts to establish such a club have thus far failed, it seems certain that this need will be met in the near future.

## COMMITTEE TO RECOMMEND 3-DAY CURB MARKET FOR CITY

Proposition and Grievance Committee Will Recommend That Council Designate Market Street as Site For Curb Market.

Members of the Proposition and Grievance committee of City Council to which council as a whole referred the matter of the establishment of a curb market in this city are unanimously in favor of the establishment of such a market for the benefit of the citizens of the city as one means toward solving the problem of the High Cost of Living.

It is understood that the committee will, at the next regular meeting of City Council, make their report recommending that the Laws and Ordinance committee be instructed to draw and offer an ordinance setting aside both sides of Market street from Second to Third streets on Tuesdays, Thursdays and Saturdays for farmers and gardeners where they will be allowed to offer for sale from their wagons fruits and vegetables and dairy products as well as all other products of the farm, but persons will not be allowed to handle a general line of staple groceries on the market.

If the committee's recommendation is adopted by council those selling on the market will not be required to pay any charge whatever for operation on the market so long as they raise the food stuffs offered for sale by them. Persons dealing as middlemen may be required to pay a license for operation on the market or may be barred entirely.

It is generally understood that the curb market is approved by a majority of the members of City Council and its establishment will be applauded by the public in general.

## HEALTH DEPARTMENT STAMPS ITS DISAPPROVAL OF SCHOOL

Inspection of Sixth Ward School Building By Health Department Makes Interesting Disclosures.

Yesterday the Health Department conducted a health inspection of the Sixth ward school. Fifty-seven children were weighed and measured, had their eyes tested and underwent physical examination.

There were several striking points brought out by this inspection. Of the fifty seven children forty-seven or 84 per cent. were either normal or above normal in height. There were thirty-one or 55 per cent. of the children under normal weight.

Sixty-eight per cent. of the scholars had defective teeth, which is about the average condition in all of the county schools. The most noticeable defect was that of the vision. Out of the fifty-seven there were fifteen children or 27 per cent. of them who had something wrong with their eye sight. This is about twice as high as the same statistics show for the average of the county schools. There is without doubt some relation between these defective eyes and the light furnished in this school. In this school there were eight children who had no defects. There were also eight who had diseased tonsils.

There is no regular supply of drinking water provided for this school. An abundant and clean supply of water is important for the health of the growing child.

The toilets used at this school are far from sanitary and are a source of danger to the school and the community.

The school building itself lacks many of the features which should be provided in a modern city school from the standpoint of good health.
